“You So Extra Greenwave Challenge”

Aloha current and incoming Greenwaves! We are excited to offer you some wonderful online and offline challenge opportunities this summer. Sign up, participate regularly, and earn incentives and prizes! Click [here](#) or go to www.keaumiddle.org to sign up today! Registration ends June 10.

Where In The World Is King Kalakaua? (online)

In this challenge, students will test their knowledge of the world and its landmarks with geography-based trivia and course plotting. With this challenge, students will learn about the Merrie Monarch, David Kalakaua, the first king to circumnavigate the globe.

June 15-July 24 **Monday-Friday** **(2 hours)**

KMS Master Chef (online)

Have you ever watched a cooking show and thought “I could do that”? Or seen a TASTY video and wanted to try it? Or are you simply just hungry and want to eat? Then the KMS Master Chef program is for you! This program will serve as both a basic cooking class and an opportunity for students to showcase their developing skills. Tuesday’s will be set aside for actual lessons where students will be instructed via Google Hangouts in the fundamentals all great chefs need to master. As the instructor demonstrates, students will be guided step-by-step through each lesson. Thursday’s will be set aside for the “Chopped Challenge” where students will create their own dishes using 3 specific ingredients outlined by that week’s challenge. Dishes will be judged based on creativity, precision and presentation. Prizes will be awarded weekly.

June 15-July 24 **Tuesday/Thursday** **(3 hours)**

We’ve Got ART, Yes We Do! We’ve Got ART, How ‘Bout You? (online)

Students will be using techniques for drawing and have time to practice! There will be some days where we draw, then paint and then turn our art into something completely different. Electronic media resources will be introduced for some projects. Work will be ongoing for the week and final projects will be included in our virtual showcase! Come have fun and learn, even if you think you "can't draw" I know you can! Common supplies that may be needed are pencils, colored pencils, felt pens, paper, and watercolors.

June 15-July 24 **Monday/Wednesday/Friday** **(4 hours)**

So What Do You Think?...Let's Talk About It! (online)

So what do you think....together we will read short articles that relate to you and your experiences. We will discuss the issue- pros and cons and what some experts think. You will then take a position on the issue and share your thoughts with us. Do you agree or disagree? As a group we will debate both sides of the topic. Finally, you will vote for who presented the best argument.

June 15-July 24 ***Monday/Wednesday/Friday*** ***(2 hours)***

Mathcounts Challenge (online)

Loving Mathematics- How to win math contests and set yourself up thousands of dollars in scholarships. Using various online platforms including The Art of Problem Solving, Khan Academy, Desmos and Alcamus, students will prepare to participate in the Big Island Chapter Mathcounts Competition.

June 15-July 24 ***Monday-Thursday*** ***(4 hours)***

Read, Review, Reward Race (online)

Students will participate in a reading challenge by successfully completing interactive lessons in the i-ready program. Students will learn and practice essential reading skills that are grade-appropriate. Students will earn prizes for successfully completing lessons.

June 16-July 24 ***Monday-Friday*** ***(2 hours)***

Quicker, Faster, Stronger Challenge! (online)

Students will engage in a simple yet fun 6 week workout program that will be full of athletic challenges and easy to follow video tutorials that will help students get quicker, faster, stronger.

June 15-July 24 ***Monday-Friday*** ***(2 hours)***

Corona Corona Challenge (offline)

Students will have the opportunity to engage in a fun and relevant 6 week challenge around the topic of Corona Virus. This opportunity is available for students without internet access via preloaded content that will need to be exchanged at Kea'au Middle School twice during the session.

June 15-July 24 ***Monday-Friday*** ***(1 hour)***

STEM Challenges Using Everyday Materials At Home (online)

Students will participate in design challenges to engineer items such as parachutes and boats utilize common items they have at home. Each challenge will have a criteria, like how many pennies or smaller items, the boat will hold before sinking.

June 15-July 24 ***Monday/Wednesday/Friday*** ***(3 hours)***
