

Return to Campus

What do I need to know?

When do I need to wear my mask?

We all have to wear our masks, over our nose and mouth, at all times in the classroom, during passing, and anytime you are outside with less than 6 feet between you and another person. If you need a mask break during class ask your teacher if you can take one **BEFORE** taking your mask off. You can take your mask off to eat in the cafeteria as long as you are seated and eating. You may take it off outside if you are more than 6 feet away from anyone else.

What happens if I take my mask off without permission?

- 1st time: Warning + classroom consequence
- 2nd time: Warning + classroom consequence + call to the counselor + call home
- 3rd time: Referral

If it is multiples times in a day you may have to be sent home. Similar consequences are in place if it is outside, too.

How will we be checked-in and out each day to make sure it is safe for us to be here?

When you get to school your temperature will be taken as you get off the bus, out of your car, or as you walk on campus. If your temperature is under 100.4 you will be given a wristband that you must keep on all day to show us that you have been checked. At the end of the day the wristband will be removed before you go home. If your temperature is over 100.4 you will be sent to the health aid to be checked again.

How will we socially distance?

We need to maintain 6 feet distance between each other whenever we can. If we cannot, then our masks must be on. We must walk on the right side of the sidewalks only and follow all posted signs. We also need to keep our belongings to ourselves so we don't spread germs that way either. We have to be aware of our surroundings and do our best to stay safe for ourselves and each other.

What are our classroom COVID rules and procedures?

1. Masks on.
2. Come in through the correct door, sanitize your hands, and use a Clorox wipe to clean your desk and chair thoroughly.
3. No eating in class. You may lower your mask to drink water but then put your masks back on.
4. If you need a mask break, ask your teacher for permission and follow their mask break directions.
5. If you need to go to the bathroom you must get permission and then use the K building restrooms. Sanitize your hands whenever you enter the room, even if you just did.
6. Stay seated unless your teacher gives you permission to get up. We need to limit movement around the room and each other.

Do we really need to follow all these rules?

YES! We are so excited to be able to welcome you back to campus but protecting everyone's health is all of our responsibilities and we take that job very seriously. We know that wearing a mask and socially distancing can be hard but these are the best ways we can protect each other. Please be respectful, responsible and safe as always and show everyone how Greenwaves spread aloha and not germs!
