

Hui 'Ohā Parent Meeting

Aloha!

Please think of one thing that helps your child stay motivated and *type it in the chat!*

Hui 'Ohā

- joining of the 'ohā of the kalo
- the 'ohā are the baby shoots of the kalo and usually represent the keiki of the 'ohana, also the word from which 'ohana was derived
- our meeting purpose is to join together to support our keiki

Hui 'Ohā Norms

- Respect
- Responsibility
- Safety

Hui 'Ohā Norms

Respect	Speak and listen and chat with aloha Keep your mic muted during presentations
Responsibility	Honor meeting time start and end
Safety	Check surroundings Keep private information out of view

Hui 'Ohā 4/8/21 Agenda:

1. Introduction, Meeting Norms
 2. Presentation: KHS Summer Bridge Program/Q & A
 3. Reminders & Resources
 4. HIDEOE Video: Getting Back to School Safely
 5. Learning Target
 6. Presentation: Motivate Students for Online Learning/Q & A
- 

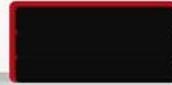

Reminders & Resources

1. keaaumiddle.org
2. KMS Summer Boost Program (for current 6th/7th grade)
3. UHH Upward Bound Program
4. KHS Summer Bridge Program (for current 8th grade)
5. Return to School Information/Videos

HIDOE VIDEO:

Getting Back to School Safely

See how Hawaii Public Schools are working hard to bring students back in a safe manner.

Learning Target:

- 1. I can help my child stay motivated for online learning.**

Getting Started

1. Check in - ask how they're doing and how you can support them
2. Lead by example - keep positive attitude; find role models with grit
3. Build work ethic - seeing things through; have them push themselves like they do in activities they love
4. Praise effort - recognize hard work, growth and progress

1. Provide structure and routine

- Sticking to a schedule provides stability kids need to keep working
- It minimizes their instincts to go rogue or off on their own without guidelines
- When expectations are set, it's more likely they will be met

2. Maintain accountability

- Maybe you can't motivate your child -- but their best friend can.
- Have them schedule daily check-ins with a friend by text or social media
- Accountability helps kids realize their not alone and gives a tangible reason to work hard

3. Incentivize

- Kids may be motivated by rewards, but you want them to feel as though they've earned it
- If they finish one packet or set amount of work, they get 15 minutes of tablet or phone time (Screen-time may not be the ideal reward, but these are unusual times. Try to find the best incentives specific to your child.)

4. Mark the occasion

- Kids are missing out on classroom parties and school dances, but you can plan an online event to give them something to look forward to
- Virtual celebration with family and friends, Zoom dance night, trivia night, watch-together movie online

5. Let them see progress

- Some kids respond well to visual cues
- Use a calendar or checklist to mark time so they can see how much they've done and how much more they need to do

6. Do a related activity

- Build upon and extend their learning with a natural connection
- If they're learning about the solar system, let them stay up a little late to map the night sky with an astronomy app

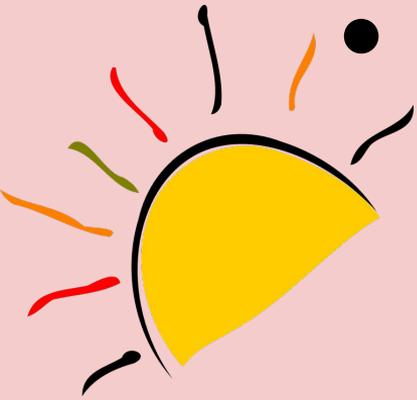

7. Experiment

- If a kid is struggling with reading it a book, turn into a read-aloud or get an audiobook
- If math is “too boring,” do the problems on a whiteboard or outside using sidewalk chalk

8. Break up the day

- If you have control over when they do work, break things up a little. Try a slower-paced morning and do their work after lunch.
- Make an agreement in advance: “If you take the morning off, you still have to get your work done before you can play outside or online with friends later.”

9. Change the timing

- If your kids are in online classes, you have to accommodate those schedules.
- But, for independent work, there's no harm in experimenting with different times of day. Sometimes the change is all it takes.
